THE MOBITEC SPIRIT

Together we create moments of well-being since 1990!

Precious moments with friends or family around the dining table. An inspiring seminar. A gourmet break in your favourite restaurant. We contribute to all these moments of well-being by developing high-quality seating and tables designed for your comfort and adapted to the atmosphere of the place.

"From the outset, people have been at the heart of Mobitec. We consider well-being at every link in the chain: for our customers, of course, but also for our teams, our partners and our suppliers."

Anne Rom & Marie Claeys

we are
mobitec

Based in Eupen in Belgium, Mobitec is a brand of high-quality chairs and tables founded in 1990.

Our specialty?

Designing and manufacturing ultra-customized models that can be fully configured to suit the desired atmosphere and meet your specific needs. Whatever your project, Mobitec gives you the power of choice! We design a variety of collections in styles that are suitable for all interiors, whether classic or inspired by the latest trends.

High quality in all respect

We also know and take into account the specific requirements of your specialized sector: restaurants, hotels, offices, healthcare, etc. Tables and seating adapted to your wishes and needs. Our label stands for quality, authenticity and durability. Seating comfort is our priority!

OUR VALUES

Continuity

Continuing on our path with respect for our history.

Respect

Acting in a benevolent way towards the world that is our home and the people around us.

Originality

Daring to think outside the box.

Family

Cultivating family values.

Trust

To trust and be worthy of the trust placed in us in order to grow.

12 REASONS TO CHOOSE MOBITEC

1. Family-owned company

Active in the market for over 30 years. 3rd generation.

2. Reliability

In our commitments, in our quality, in our delivery times and in our services.

3. Design Made in Belgium

Timeless, modern, innovative and original design.

4. European production

We produce in Poland, where we have found our answers to quality and expertise.

5. Wide range of products

We design complete product families. A given model can be offered with different types of legs and armrests, several seat heights, etc.

6. Ultra-customisation

Each product is configured according to your needs or desires thanks to our wide range of finishings.

7. Production from A to Z

From the purchase of raw materials to the final delivery, we manage every step of the purchasing, production and delivery process.

8. No stock, production to order

We have no stock; we produce items to order. In addition, there is no minimum quantity requirement.

9. Excellent value for money

With us, you always pay for the product, not the brand!

10. Unparalleled seating comfort

Regardless of the model, seating comfort is and remains our starting point, our hallmark.

11. Controlled and optimized delivery time

Our standard delivery time is 6 to 8 weeks (except in exceptional circumstances, of course).

12. Guaranteed durability and very low after-sales rate

Our products are designed and produced to last. Our after-sales rate is more than satisfactory for the sector and we are constantly working to lower it.

SOLUTIONS FOR ALL YOUR PROJECTS

Does your project not fit into any of the boxes? Good thing we don't either... Our collections cover all styles: classic, contemporary, Scandinavian, retro, rustic, and more.

Our customisation options allow you to refine the final result to the fullest extent. You can even send us your choice of covering to be fitted to your seats!

In recent years, our products have found a home in a football stadium, the pop-up store of a clothing and shoe brand, an old church converted into a theatre and the coffee corner of a large cinema, among others.

Whether big or small, tell us about your projects! We will be delighted to help you bring them to life.

MEET US

Eupen, Belgium

Our showroom is located in the heart of our headquarters. It is of course accessible to our business customers, but also to any consumer looking for advice and inspiration.

Haus Aussel, Germany

Since 2020, we have been presenting our collections in an exceptional location, ideally situated in the well-known furniture industry region of Rheda-Wiedenbrück.

Nieuwegein, The Netherlands

Located in the DWI building, our permanent stand is open every Monday or by appointment.

Ans Belgium

Discover our *feel at home* solutions for the OFFICE sector in a real-life situation at BRAINSTORMING's facilities.

Across Europe

If you are unable to visit us in our showrooms, we will visit you with our mobile showroom, a real experience worth seeing!

The Mobitec showrooms comprise more than 1,500m² of exhibition space dedicated to our world and our products. We look forward to seeing you there to discover, test and examine our collections and coverings in detail.

HORECA SOLUTIONS

It goes without saying that customers come to your place to have a good time. This entails finding comfortable and quality furniture so that they can prolong their enjoyment. You must also attach importance to the solidity and quality of the furniture, so that it does not have to be replaced rapidly. We offer many collections that will perfectly meet the specific needs of the restaurant sector. Our strengths? Style, comfort, quality and freedom of choice in the finishes and materials.

OFFICE SOLUTIONS

We usually spend more time at the office than at home on a given day. So it is important to feel good in our work environment. Creating a cosy and comfortable office for your employees has a considerable impact on their motivation and productivity.
